

Election Results

The following provisional election results are published by the Local Government Association based on information supplied by the State Electoral Office. Votes are first preference votes cast - not final distributions. All Councils and Wards facing elections are shown - those where results are not yet available will show no results and no votes. Note that Adelaide City Council elections are deferred to 2007 and Roxby Downs Council does not yet have an elected Council - leaving 66 Councils with elections in this listing.
